Building Energy & Operational Information Management for Commercial and Industrial

Yorkland can deliver integrated automation and operational technology with our metering and data acquisition hardware and software for monitoring, verification, sub-metering, asset and building automation control.

THE HARDWARE

Metering and Flow: Dwyer, Badger, Honeywell, Johnson Controls, Carlo Gavazzi

Smart Starters and VFDs: Johnson Controls, Honeywell

Critical Environments: TriTek by Johnson Controls

Smart Hazardous Gas Detection: Honeywell, Johnson Controls

Smart Combustion: Honeywell, SLATE, Thermal IQ

Smart Energy Valves: Belimo

IOT Sensors: Ingram Micro, Manit

IP Controllers: EasyIO, Honeywell, Johnson Controls, Phoenix Contact

Smart Panels: Yorkland Controls, Phoenix Contact

THE CONNECTIVITY

Managed Switches: Optigo, Johnson Controls

Fiber OT Network: Optigo

Secure Remote Connectivity as implemented at scale: Iotum

Secure VPN for remote access to service and engineer: ToiBox

THE SOFTWARE – Hosted on Site or Cloud

Analytics and FDD: Honeywell Thermal IQ Cloud

Combustion: Honeywell, SkySpark

Maintenance Management: BuiltSpace

Unified User Interface: FinStack by J2 Innovations, Niagara-Honeywell, Honeywell Controls, BuiltSpace

BACnet Analytics to: Optigo

Yorkland is an authorized distributor for major manufacturers and products.

Product Line Card

COMMERCIAL AND INDUSTRIAL CONTROLS FOR:

• Heating, Ventilation and Air Conditioning
• Boiler and Burner Management
• Process Automation
• Energy Management
• Refrigeration
• Security
• Lighting
• Network Hardware and Software

ASCO
Gas Safety Shut Off Valves

BELIMO
Compact Valve and Damper Actuators

RMG
Bryan Donkin
Gas Pressure Regulators and Flow Meters

Electrical & Gas Valves

Flame Safeguard Controls and Multi-Burner Management Systems, Discriminating Scanners, Nexus Combustion Efficiency Controllers to trim for maximum fuel savings

G & C
Air, Gas and Liquid Solenoid Valves

Battley Controls

Sensors for Building Automation, Temperature, Pressure, IAQ, Humidity

BACnet Analyzers, NOX Emission Detectors, Electronic Thermometers, PH Detectors and Humidity Meters

Honeywell

Pneumatics, Building Automation, HVAC Control Components

John Controls

Building Automation, Heating, Refrigeration, Pneumatic and Electric Controls, Penn Products

JOHNSON CONTROLS

Combustion Analyzers, NOX Emission Detectors, Electronic Thermometers, PH Detectors and Humidity Meters

Authorized Service & Calibration Centre

KMC

Pneumatics, Building Automation, HVAC Control Components

MAXITROL
Gas Pressure and Gas Fired Modulating Control Valves

McDonnell & Miller
Low Water Cut Offs, Flow Switches, Boiler Water Feeders & Relief Valves

Schneider Electric

Building Automation for light commercial buildings, Pneumatics, Valves, Actuators, Robertshaw, Barber-Colman Products

SIEMENS

Landis & Gyri/Powers – Pneumatic and Electric Controls, Damper and Valve Actuators

Boiler Reset Controls, Valves and Actuators

THE HARDWARE

Metering and Flow: Dwyer, Badger, Honeywell, Johnson Controls, Carlo Gavazzi

Smart Starters and VFDs: Johnson Controls, Honeywell

Critical Environments: TriTek by Johnson Controls
