

PRESS RELEASE

HONEYWELL ENVIRONMENTAL & COMBUSTION CONTROLS GROUP
APPOINTS YORKLAND CONTROLS LTD AN AUTHORIZED SYSTEMS
DISTRIBUTOR (ASD)

Program enlists distributor to support qualified controls contractors in Ontario.

TORONTO, January 11, 2009

The Environmental & Combustion Controls Group of Honeywell has introduced a new Canadian program which enlists highly qualified distributors such as Yorkland Controls Ltd to support Honeywell Program Contractors.

Honeywell Program Contractor designations include:

- Authorized Controls Integrators (ACI)
- Authorized Control Specialists (ACS)
- Commercial Comfort and Energy Specialist (CCES)

The primary focus of Yorkland as an ASD is to promote, grow and support Honeywell's: WEBS-AX, EXCEL 5000 Open, SymmetrE, and Light Commercial Building Controls (LCBS) product offerings.

"We were looking for firms with advanced technical expertise and strong application engineering staff", said Sheila Lenss, Sales Manager of Commercial Products for Honeywell Canada.

Honeywell Program Contractors and Distributors receive extensive up-front training and on going technical support.

"Yorkland is excited about being an ASD as it positions us well in supporting local Honeywell Program Contractors and offering total solutions for customers.", says Gerry Cellucci of Yorkland Controls Ltd..
