

Meet Mechanical Room Refrigeration Detection Standards and Codes & Save !

Save 10% on Honeywell Vulcain
Mechanical Room Refrigeration Detection Components

OR

Save 15 % when you purchase the YKL Detection Kit which includes:

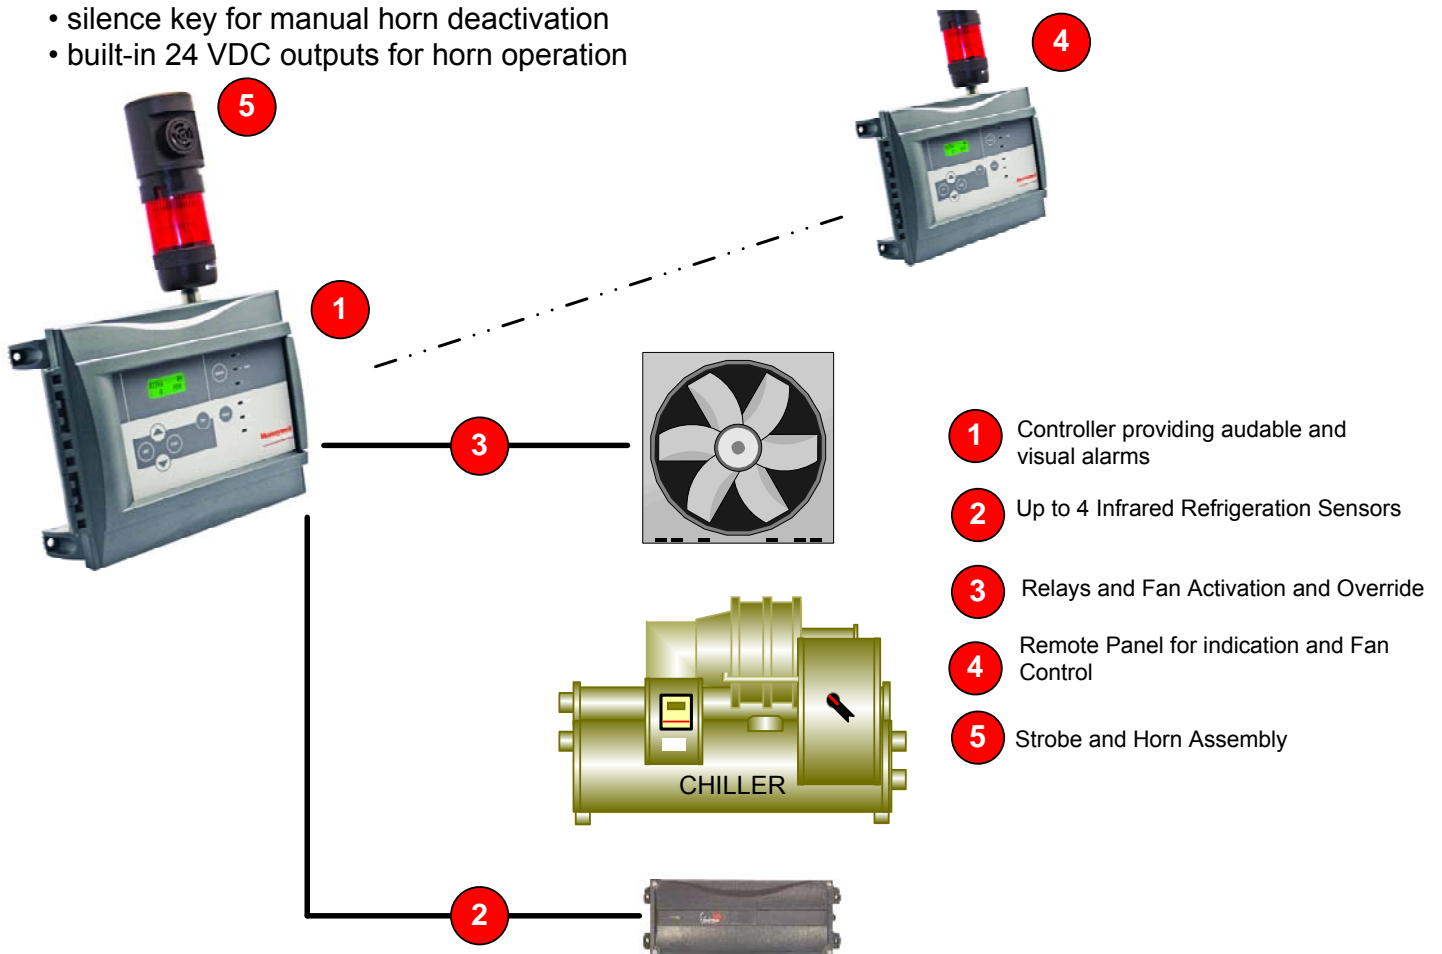

- VA301 Mechanical Room Controller with horn & strobe
- One Infrared refrigeration gas sensor
- VA301RP remote panel with strobe light and horn

ASHRAE No 15-2001 Mechanical Standard and B-52 Code Compliance

The ASHRAE and B-52 standards have been established to minimize risk and protect the safety of mechanical room personnel and the environment at large.

The VA301EM Controller Module has been carefully designed to meet and even exceed these rigorous standards. The VA301EM can be configured to offer:

- automatic fan, horn and strobe activation
- manual fan activation
- non-latching relay for manual alarm recognition
- silence key for manual horn deactivation
- built-in 24 VDC outputs for horn operation

Save on Honeywell Vulcain – Promotion Ends May 1, 2009

Save 15% when ordering separate items in kits.

Each kit includes:  +  +  +  + 

- Vulcain VA301EM Series Mechanical Room Controller with Strobe Light, Horn, Relays
- One Infrared Refrigerant Gas Sensor (specify gas)
- Vulcain VA301RP Remote Panel typically mounted outside the mechanical room

When ordering Specify:

- YKL-REFVUL-123 Kit with R123 infrared gas sensor
- YKL-REFVUL-134a Kit with R134a infrared gas sensor
- YKL-REFVUL-404 Kit with R404 infrared gas sensor

Kits available for other common refrigerants
