

**LEADERSHIP. PARTNERSHIP. CHOICE.**  
**Ontario's Best in Class Contractor Channel –**  
**Premier Sponsors**

**CHOICE** of qualified Honeywell Building Automation Integrators with extensive technical knowledge and rich industry experience. Come learn more about the importance of this and other options to consider for your long term building needs.

**KNOWLEDGE** on how today's technology is transforming buildings; improving energy efficiency, operational performance, as well as the financial bottom line for building owners.

**FINANCIAL IMPROVEMENT** implementing building projects with short-term paybacks from Ontario's Best in Class Building Automation Integrators.

**NETWORK** with Canada's BUILDING thought leaders and partners who can help your business reach its maximum efficiency and operating potential.

**SCHEDULE**

The Summit opens at 8:00am with industry leaders speaking from 8:30am - 1:00pm. An opportunity to network with premier Building Automation Integrators and others, including a trade show, follows from 1:00pm - 4:00pm.

**MEALS & REFRESHMENTS**

Refreshments will be provided in the morning along with lunch during the trade show portion of this event. The Summit is fully funded by the hosting parties and is complimentary.

**The 2010 Canada Buildings Technology & Innovation Summit:**  
*Transforming How Buildings Work*

October 28, 2010

Woodbine Race Track

[www.woodbineentertainment.com](http://www.woodbineentertainment.com)

Toronto, Canada

8:30 - 4:00

Ontario's Best in Class Building Automation Integrators, in conjunction with Honeywell and Yorkland Controls, invite you to attend the 2010 Canada Buildings Technology and Innovation Summit: *Transforming How Buildings Work*. The Summit is open to all building owners, facility managers, engineering and commercial construction leaders, providing an exceptional educational and networking opportunity.

The 2010 Summit will focus on:

- Healthier, Cleaner, more Efficient Building Environments
- Technology and Design Innovation: Global Trends
- Intelligent Buildings: What They Are and The Value They Provide
- Canada Case Studies demonstrating real technology deployments and resulting bottom-line benefits

**RSVP TODAY!!!**
